### Full integration with your Dynamics ERP environment

**Assistance PSA** offers a full integration with your financial platform, the Microsoft Dynamics ERP platform (NAV/GP/AX). This standard integration is delivered out of the box by Microsoft™. In the *front end* section, you manage your customers and contacts with full CRM functionality: **Assistance PSA** adds project management, project calculation, project planning, time and expense registration and invoicing to this basis. All information you need in a single platform, online and offline.

**Assistance PSA** for Microsoft Dynamics CRM™ is available *On Premise*, *SaaS* and *CRM Online*, the choice is yours!

### Assistance PSA is xRM

Assistance PSA is *the* xRM solution for professional service organizations. By making use of the powerful Microsoft Dynamics CRM platform, this technology is fully available within **Assistance PSA**.

From **Opportunity** to Project Marketing campaigns, mailings, turning leads into opportunities: all those things are standard CRM functionalities, but we go beyond standard CRM! **Assistance PSA** allows you to turn opportunities into projects, calculate your hours and plan your projects, all with a single mouse click.

### PSA Mobile App

Book your hours without a pc or laptop. With Assistance PSA Mobile APP, Assistance PSA users can enter their hours using mobile devices like smartphones and tablets. The hours are then automatically saved in Assistance PSA for Microsoft Dynamics.

### Project Status App

Check the actuals of projects on your mobile device. The Project Status App will be a native App for multiple devices. The App will have live tiles to actively warn the project manager on projects that are out of budget.

### Invoice your projects with a single mouse click

With a single click of the mouse you can generate invoices that are ready for your financial department.
